# Our Sustainability Commitment

We are committed to sustainable tourism and would love you to join us in our efforts! Buy a native seedling to take home or we will plant on your behalf for only \$10.

We have different native seedlings available including Kahikatea, Manuka, Totara, Harakeke, Mahoe and more.

With all funds raised, we then purchase humane automated predator traps for placement at the Treetop Walkway and other areas on the West Coast.

Let's make sure our endangered wildlife flourish by eradicating pests.
